

The Engineering and Surveying Department maintains a research facility to provide our staff with the survey information needed during the map review process. This facility is also available for use by licensed surveyors and their staff. This is a “Self Serve” operation so we ask that surveyors familiar with our facility provide the training necessary for new employees to use this facility. The following information is available.

- Benchmark Information

Copies of:

- Recorded maps (reduced to 11” x 17”).
- Assessment maps
- Recorded deeds
- GLO plats and field notes
- Mining claim notes

The following information is available in Tiff format, you may copy these images to your own CDs:

- Corner records
- Highway plans
- Unrecorded surveys
